

Product Data Sheet

Xpert-60 Clay-2-Go Lube

500ml/16.9fl.oz
Code: XP-90040

SINCE
1987

Superior surface lubricant

- Clay Lube is the Professional's choice for lubricating surfaces whilst removing surface contamination through the claying process - Clay bar, Clay pad, Clay towel.
- Clay Lube is a specially formulated lubricant to help prevent surface marring which is caused primarily through drying out issues due to friction.
- Clay Lube is easy to apply, creates a surface barrier through the claying process, and is easy to wipe down once de-contamination is complete.
- Clay Lube delivers superior performance to conventional methods i.e. soapy water.

Directions for use:

Apply a liberal amount of product to the face of the clay and to the surface area being treated.

This lube both the surface area being worked and the clay. Proceed to decontaminate surface by following clay bar instructions/method for use.

Wipe down with cloth.

Do not apply/use in direct sunlight
